ABOUT ME

Enthusiastic Frontend Developer with a passion for creating dynamic and interactive user interfaces using React. Highly skilled in HTML, CSS, JavaScript, and modern frontend libraries and frameworks. Strong ability to turn design concepts into functional and responsive web applications. Committed to staying up-to-date with the latest industry trends and technologies.

EXPERIENCE

Binar Academy
Frontend Developer Student

(March 2023 - Present)

Enrolled in an intensive frontend developer bootcamp with a focus on ReactJS. Passionate about creating elegant user interfaces using HTML, CSS, and JavaScript. Excited to contribute to innovative projects and grow as a developer.

Telkom Indonesia

(July 2022 - January 2023)

Creating some "Internal Super App" with my team using Material-UI, Typescript. The apps is able to display the data using the graph by React Apex, and the details of the data using the Table.

AIESEC in UNHAS
Coach

(August 2021 - November 2021)

Giving what is leadership based on my experience, control every participant with the activity sheet, then collaborate to other coach so the coaching more fun and interactive

EDUCATION

Telkom University
Bachelors Computer Science

(August 2018 - August 2022)

PROJECTS

Car Rental App
rent-car-ten.vercel.app/

(March 2023 - August 2023)

Working on a car rental app project developed during my frontend bootcamp. Leveraging ReactJS, HTML, and CSS, I am creating an intuitive and responsive user interface. Eager to showcase my skills in building user-centric applications and contribute to the seamless user experience in the car rental industry. Open to learning and collaborating to enhance the app's functionality and design

SKILLS

ReactJS (Advance), HTML CSS (Advance), NodeJS, Git, MongoDB.
